

ACTIVITY GUIDE

Emily Stover – Visual Artist

Writing/Essay/Journal

Emily Stover's interactive installation, *General Delivery*, shows how information gets delivered through both physical and digital space. Exhibit goes start out by hand writing their own pieces of mail to "deliver" throughout the installation.

With our communication becoming more and more digital, what we say and do on the Internet lives on longer than it might have if it had been written out. Hand-write a short essay that explores the implications of this. Is it a good thing? Is it a bad thing? A little of both?

Activity

Take your hand-written essay from above and convert it to a *digital* image. Work with your classmates to develop a digital space where you can display these pieces of communication.
